

Rocky Flats Overview

Scott Surovchak

Site Manager, Rocky Flats

Wednesday, March 2nd

4:00 pm

Hill Hall 202

Biography. Scott Surovchak is currently the U.S. Department of Energy's (DOE) Site Manager for Rocky Flats, Pinellas, and California sites. As a Site Manager he is responsible for oversight and evaluation of the planning, design, construction, and operation of facilities and field projects in support of RCRA/CERCLA/NEPA/CWA/CAA compliance.

Mr. Surovchak has 35 years of extensive experience both within DOE and in the private sector in project planning and execution, including; long-term monitoring and maintenance of CERCLA and RCRA remedial actions; development and management of project budget and baseline (scope, schedule, cost); conceptual, preliminary and detailed design; construction/demolition management and inspection; regulatory remedial action documentation and permitting; soil and ground water remediation and monitoring; and direct interaction with stakeholders including members of the public, regulatory agencies, and other governmental stakeholders.

Mr. Surovchak has a B.S. in Geology and graduate work in both Hydrogeology and Environmental Policy & Management.
